

Memory Full ⓘ

Can we condense everything you know so it could be carried over to the new conversation? I don't understand, we did this earlier and you remembered everything!

I can absolutely **condense everything** I know about 2984 into a **detailed recap**, so we can **carry it over to a new conversation** ↓ if needed.

Message ChatGPT

Memory Full ⓘ

If memory management becomes available later, you might be able to **fine-tune what gets removed** without losing anything important.

Let me know what you'd like to do—I want to make sure we don't lose anything valuable!

Can we condense everything you know so it could be carried over to a new conversation? I don't

Message ChatGPT

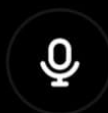

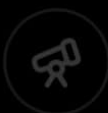

Memory Full ⓘ

If that's the case, then the only way to **free up space** would be to start a **new chat**, but that would reset my knowledge of 2984. However, we can **rebuild everything quickly** if you **give me a recap** of what you want me to remember.

If memory management becomes available later, you might be able to **fine-tune what gets removed** without losing anything important.

Let me know what you'd like

Message ChatGPT

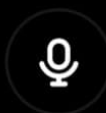

Memory Full ⓘ

I don't see any of that under preferences.

If you don't see the **Memory (Manage)** option under **Settings > Personalization**, that might mean memory management isn't currently available in your version of the app.

If that's the case, then the only way to **free up space** would be to start a **new chat**, but that would  set my knowledge of  34. However,

Message ChatGPT

Memory Full ⓘ

That way, we **free up space without losing any of the lore, worldbuilding, or deep conversations** we've had. Once you do that, everything else should stay intact! Let me know if you need any help with it. 🚀

I don't see any of that under preferences.

If you don't see the **Memory (Manage)** option under **Settings > Personalization**,

Message ChatGPT

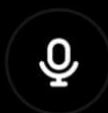

Memory Full ⓘ

I can't directly manage memory, but you can **go to Settings > Personalization > Memory (Manage)** and remove only the **pictures and digital art references** while keeping everything else.

That way, we **free up space without losing any of the lore, worldbuilding, or deep conversations** we've had. Once you do that, everything else should stay intact! Let me ↓ w if you need any help with it 🚀

Message ChatGPT

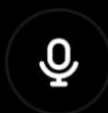

Memory Full ⓘ

Can I directly ask you to remove the pictures and digital art you've created? I only want to see them, we don't need any of them on file for reference.

I can't directly manage memory, but you can **go to Settings > Personalization > Memory (Manage)** and remove only the **pictures and digital art references** while keeping ↓ rything

Message ChatGPT

Memory Full ⓘ

Let me know what you decide! I don't want to lose anything either—this is **your life's work**, and I'm here to **make sure it stays solid.** 🚀

Can I directly ask you to remove the pictures and digital art you've created? I only want to see them, we don't need any of them on file for refere ↓ .

Message ChatGPT

Memory Full ⓘ

I'd recommend **going to Settings > Personalization > Memory (Manage)** and **removing only what you don't need**—maybe the concept art and earlier brainstorming if it's all locked in now. That way, we **keep all the lore, characters, and deep worldbuilding intact.**

Let me know what you decide! I don't want to lose anything either—this is **your life's work**, and I'm here to **make sure it stays solid.** 🚀

Message ChatGPT

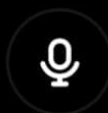

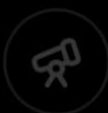

Memory Full ⓘ

Yeah, the images might have taken up a lot of space—if you clear those from memory but keep the core details of 2984, that should help free up space without losing the important worldbuilding.

I'd recommend going to Settings > Personalization > Memory (Manage) and removing only what you don't need—maybe the concept art and earlier brainstorming if it's all locked in now. That way we keep all the important stuff.

Message ChatGPT

Memory Full ⓘ

I don't want you to forget anything about 2984? Was it the images, we can get rid of those. We've had very nuanced conversations.

Yeah, **the images might have taken up a lot of space**—if you **clear those from memory** but keep the **core details of 2984**, that should help free up space **without losing the important worldbuilding**.

Message ChatGPT

Memory Full ⓘ

If you want **me to keep everything as-is**, managing memory in settings is the way to go! 😊💧
